**ONE DAY EXPERIENTIAL LEARNING TOUR/FIELD VISIT AT HIGH TECH  
POLY HOUSES OF DEPARTMENT OF AGRICULTURE, ANANTNAG**

under the short term certificate course/ skill training programme “**protected commercial vegetable and flower nursery production and management**”.

**REPORT**

As a part of curricular activity under NEP2020, the department of Seed Technology organized one day experiential learning tour/ field visit to high-tech poly houses established and governed by Department of Agriculture, Anantnag at different locations. The tour was scheduled under the certificate course/ skill training programme on “protected commercial vegetable and flower nursery production and management.

The department of agriculture, Anantnag have established high tech poly houses at different locations under holistic agriculture development programme, wherein they produce healthy seedlings of vegetables and flowering plants and simultaneously impart training to farmers. These units act as demonstration centres for transfer of technology to the rural communities mostly rural youth for establishing start-ups/entrepreneurial units of their own. With the objective of training our students with these ventures where students can have opportunities for establishing these kind of start-ups/entrepreneurial

units. About 29 students enrolled in different courses of our college registered for the said programme along with staff including Dr. Bilal Ahmad Wani HoD seed technology, Dr. Azad Hussain Khan Asstt. Prof. Seed technology and Mr. Tariq Ahmad Itoo Lab bearer visited these high tech poly houses established in Dialgam Anantnag and Matan, Anantnag.

On the arrival at high-tech poly house Dialgam, the officials of the department gave thorough deliberations on the importance of these structures to produce healthy vegetable and flowering seedlings through out the year. The officials also acquainted the students about the different schemes to establish these structures on 90% subsidy and create the employment opportunities. After the visit at high-tech playhouse at Dialgam, we moved to high-tech poly house structure located at Matan, Anantnag which is highly automatic with the temperature regulation system, irrigation system and defogging system. The students were given brief training about how to operate and produce the disease free high value seedling of flowers and vegetables in these structures. On the conclusion of the field visit Dr. Azad pay vote of thanks to the officials of department of Agriculture Anantnag for providing this opportunity.
